

Washington Electric Cooperative, Inc.

A Touchstone Energy® Cooperative 

Tree Agreement

I, the undersigned, acknowledge that I have requested that Washington Electric Cooperative assess a tree or trees on my property that I believe are in danger of affecting or damaging power lines. The assessment will determine whether trimming or removal of the tree(s) is my responsibility or the cooperative's.

If it is determined that the responsibility belongs to the cooperative, the work will be performed by Washington Electric personnel or a contractor hired by the cooperative. I hereby acknowledge and agree that I accept ownership of all parts of the tree(s), to include limbs, brush, main stem and stump, and am responsible for cleanup.

This agreement in no way obligates Washington Electric to remove or trim said tree(s) unless it is determined by cooperative personnel that it is necessary and the cooperative's responsibility.
